Our gift basket items are all sourced exclusively from New England-based artisans, most of them local to the Monadnock Region, and every purchase supports our community.

These pre-designed baskets and boxes are some of our best sellers but there's an infinite array of products in the store to custom design any baskets based around a preferred theme or price point.

Gift basket options listed in this flyer do not specify flavors or scents. You can leave the selections to us or we'll work with you to fill any specific requests.
